

# ADRC Participant Access Request

## Access Request Goal

Goal - Formal request for ADRC data

## Principal Investigator

Name	Erik Roberson
Title	Professor
Institution	UAB
Email	eroberson@uabmc.edu (mailto:eroberson@uabmc.edu)
Phone	(205) 996-9486

No Co-PI listed in survey

# Study and Theme Details

## Hypothesis

CSF pTauY18 can serve as a biomarker of target engagement for a new therapeutic program of Tau-SH3 interaction inhibitors, which my lab is working on.

## Specific Aims

To develop assays to measure CSF pTauY18

This study is not related to Deep South disparities

# Funding and IRB Details

Funding source - Not yet funded

IRB Contact - Not yet discussed project with IRB

# Subject Sample Size and Profile

## Sample size by cognitive ability

---

Normal Controls	1-2
-----------------	-----

---

Mild Dementia	1-2
---------------	-----

## Additional inclusion/exclusion details

We just need some CSF samples from 1-2 controls and 1-2 patients with AD (any dementia stage)

## Racial minorities and other stratification

This study does NOT test hypothesis on racial disparities

# Requested Resources

Banked biospecimen

Other fluid

---

CSF (100ul)

# Statistical support

Would like to discuss statistics with the ADRC
